

# MANDATORY HEALTH DECLARATION

### General insurance information

Medical evacuation, if available, is expensive; therefore, it is necessary for you to have a Travel Protection Plan/travel insurance that will reimburse you for this cost. If you have taken out a Travel Protection Plan/travel insurance, can you please provide the below details.

NAME OF THE COMPANY:	
COMPANY'S EMERGENCY NUMBER:	
POLICY NUMBER:	
additional expenses/losses incurred resul	ection Plan/travel insurance, I will not hold Hurtigruten AS responsible for any ting from my cancellation of this trip, accident, sickness, medical evacuation, lost or cy that would have been covered by the insurance protection recommended.

#### Part I: Health Declaration

This part of the form must be completed in English or using international medical terms. Please do not abbreviate any words.

I attest that I am in good general health, and capable of performing normal activities on this expedition. I further attest that I am capable of caring for myself during the expedition, and that I will not impede the progress of the expedition or the enjoyment of others aboard. I understand that this expedition will take me far from the nearest medical facility and that all travelers must be self-sufficient. With that understanding, I certify that I have not been recently treated for, nor am I am aware of, any physical or other condition or disability that would create a hazard to myself or other members of the expedition.

## Part 3: Medical Doctor's Opinion

Please give this form along with your itinerary to your personal doctor. Please check our webpage for an updated list of destinations where a doctor's opinion is required.

Dear Doctor,

Our traveler is planning an expedition cruise to the areas where sophisticated medical facilities are unavailable. Each vessel carries a doctor and a small infirmary. While not strenuous, travelers who participate on excursions must negotiate a steep gangway, get in and out of landing boats with assistance and be capable of walking a short distance over uneven and slippery terrain ashore. The areas being travelled in are very remote and where medevacs are possible can take up to 2 days and in some cases (such as South Georgia) medevacs are impossible, as the area is out of the range of helicopters and/or landing strips. References to our Expedition Voyages: we ask you to take a quick look at the following links, just to give you an idea what kind of journey this is:

https://www.youtube.com/watch?v=PSJMTtp\_6kQ https://www.youtube.com/watch?v=ADwZDRriSHs

According to our regulations, passengers in "poor" health condition are in high risk of complications during the trip and therefore they should not join the voyage. Master and Doctor will deny passengers to come onboard with a medical form incomplete and/or with an unstable physical health condition.

We would like to be sure that each of our passengers is in adequate medical condition for the voyage and that our shipboard doctor is fully alerted to any potential health problems.
